

Syscom – Disposal Services

Syscom Technologies offers a series of comprehensive IT Asset Disposition Solutions designed specifically to mitigate the various liabilities associated with disposing assets.

Recycle Today Disposition Solutions

The Recycle Today suite of services available through Syscom manages your disposition requirements. These on-demand services and solutions meet immediate requirements quite effectively, ensuring a timely response thorough the collection of assets with simplified reporting and cost effective business strategy.

Syscom's Recycle Today Disposition Service delivers the following:

- National Processing Centers
- Managed Pack & Ship Logistics
- Comprehensive Audit, Inventory & Reporting
- Remarketing Services (To Offset Services Costs)
- Direct Disposal Services (Reduced Cost Disposal)
- Data Destruction Services
- Donation Processing
- Lease Return Processing
- Employee Resale Programs
- EPA/DEP Approved Recycling Services

Recycle Tomorrow Planned Disposition Insurance

The Recycle Tomorrow Program is the most cost effective asset disposition solution available today. Recycle Tomorrow Services are purchased in tandem with new IT assets and a services contract covers all of the costs associated with the eventual disposition practice. With a little planning, customers can realize as much as a 75% cost reduction compared to the Recycle Today Services Solution and other competitive disposition vehicles. Recycle Tomorrow contracts can cover all costs, including but not limited to; logistics, processing, disposal and even data destruction.

Syscom's Recycle Tomorrow Planned Disposition Service delivers the following:

- National Processing Centers
- Included, Managed Pack & Ship Logistics
- Comprehensive Audit, Inventory & Reporting
- Remarketing Eligible (Value Back)
- Optional Data Destruction Services
- EPA/DEP Approved Recycling Services

Syscom – Disposal Services

Syscom Technologies offers a series of comprehensive IT Asset Disposition Solutions designed specifically to mitigate the various liabilities associated with disposing assets.

Data Destruction

Simply reformatting hard drives and other storage devices may not remove all the data. Syscom's Data Destruction business practice meets the stringent requirements of the US Department of Defense (5220.22M Compliant Standard) or the physical removal and destruction of all storage devices within technological assets.

Syscom's Data Destruction Service delivers the following:

- HIPAA Compliant Data Destruction
- Sarbanes-Oxley Compliant Destruction & Reporting
- Gramm-Leach-Bliley Compliant Data Destruction
- Disk, Tape & Cartridge Destroy Solutions

Environmental Services

Syscom realizes many IT products like CRT monitors and UPS power systems are classified as hazardous waste by the US Environmental Protection Agency (EPA). It is essential that organizations protect themselves from fines, fees and other related losses due to this environmental threat.

Syscom's Environmental Services delivers the following:

- Managed Pack & Ship Logistics
- Full Auditing & Reporting
- Purchase Credit for Working Systems
- Transfer of Title/Ownership of Asset
- Environmental Processing Documentation
- Zero Landfill Policy
